

Row Number	WebVoyage Page	Design Element	Relevant File(s)	Current Customization Offering from CARLI Office Staff?*	Libraries May Modify Element in Own Development Area without Consortial Impact?	Notes
1 any	banner / header		header.htm	Yes	Yes	Header functionality must include a link back to the catalog to restart a session. Additional functionality linking to other library pages via an image map is acceptable. Call to I-Share's session-management JavaScript must be retained.
2 any	top toolbar colors, fonts		*.gif	No	Yes	
3 any	top toolbar elements		opac.ini	No	Yes	Libraries may add but not remove buttons. (Libraries may disable CARLI extension that suppresses Request button on pages other than single-record display.)
4 any	top toolbar wording		opac.ini, *.gif	No	No	Spacing may vary (e.g., "MyAccount" or "My Account"); wording on optional buttons (e.g. "New in the Catalog") may also vary.
5 any	top toolbar button sequence		opac.ini	No	Yes	
6 any	top toolbar button functions		opac.ini	No (except Quit)	No (except Quit)	
7 any	bottom toolbar colors, fonts		*.gif	No	Yes	
8 any	bottom toolbar elements		opac.ini	No	Yes	Libraries may add but, except for the Request button, not remove buttons. Libraries may remove the Request button altogether, or may disable the CARLI extension that suppresses Request button on pages other than single-record display, to make it display at all times.
9 any	bottom toolbar wording		opac.ini, *.gif	No	No	Spacing may vary (e.g., "MyAccount" or "My Account"); wording on optional buttons (e.g. "New in the Catalog") may also vary.
10 any	bottom toolbar button sequence		opac.ini	No	Yes	
11 any	bottom toolbar button functions		opac.ini	No (except Quit)	No (except Quit)	
12 any	"Request" button on toolbar suppressed, except on single-record display page		opac.ini	Yes	Yes	Removing local variable ILC SO002 will unsuppress Request button but will also disable bug fix regarding requests placed from MyBookbag.
13 any	footer / logo		footer.htm	No	Yes	Footer must include some reference/link to "CARLI." Call to I-Share's session-management JavaScript must be retained.
14 any	fonts		webvoy.css, *.gif, opac.ini, *.jpg, *.htm	No	Yes	
15 any	colors		webvoy.css, *.gif, opac.ini, *.jpg, *.htm	No	Yes	
16 any	"Now Searching:" label and database name present?		opac.ini	No	No	
17 any	"Now Searching:" label's text		opac.ini	No	No	
18 any	database name after "Now Searching:" label		SysAd	Yes	Yes	Please avoid abbreviations.
19 any	window title		opac.ini	Yes	Yes	Strongly recommended to identify institution at the beginning of each window title.
20 any	alert / error message color		*msg.htm	No	Yes	
21 any	alert / error message wording		*msg.htm	No	No	
22 Welcome	any		webvoy.htm	Yes	Yes	
23 QuickSearch	"QuickSearch" tab label		opac.ini	No	No	
24 QuickSearch	"Advanced Search" tab label		opac.ini	No	No	
25 QuickSearch	"Course Reserves" tab label		opac.ini	No	Yes	
26 QuickSearch	search tab sequence / default		search.ini	No	Yes	
27 QuickSearch	"Course Reserves" tab present?		search.ini	Yes	Yes	If suppressed from QuickSearch page also suppressed from Guided Keyword page.
28 QuickSearch	arrangement of three fields on search panel		opac.ini	No	No	
29 QuickSearch	"Search for:" label's text		opac.ini	No	Yes	
30 QuickSearch	length of search input field		opac.ini	No	Yes	
31 QuickSearch	"Search by:" label's text		opac.ini	No	Yes	
32 QuickSearch	size of search options scrollbar		opac.ini	No	Yes	
33 QuickSearch	selections in "Search by" box (i.e., the search codes enabled)		SysAd, search.ini	No	Yes	Libraries may add but not remove searches. Exception: generic Call Number search may be removed/replaced.
34 QuickSearch	sequence of selections in "Search by" box		search.ini	No	Yes	Strongly recommended to leave "Any Word Anywhere" the first, default search.
35 QuickSearch	names of search types		search.ini	No	No	New search types added may be named as the library sees fit.
36 QuickSearch	behavior of searches (i.e., what fields searched)		SysAd	No	No	
37 QuickSearch	"QuickLimit" label		opac.ini	No	No	Too many references to "QuickLimits" to make changing its name practicable.
38 QuickSearch	QuickLimits option present?		opac.ini	No	Yes	
39 QuickSearch	QuickLimits selections		limits.ini	Yes	Yes	Strongly recommended to name QuickLimits options the same as comparable limits on the Search Limits page.
40 QuickSearch	QuickLimits selection sequence		limits.ini	Yes	Yes	
41 QuickSearch	size of QuickLimits scrollbar		opac.ini	No	Yes	
42 QuickSearch	records-per-page options		opac.ini	No	Yes	Definition affects QuickSearch, Guided Keyword Search, and resubmitted-from-Titles-page results.
43 QuickSearch	records-per-page default		opac.ini	No	Yes	Definition affects QuickSearch, Guided Keyword Search, and resubmitted-from-Titles-page results.
44 QuickSearch	help text appears below (not above) the search panel		webvoyage.ini	No	No	
45 QuickSearch	help text content / format		ht_combinedsearch.htm	No	Yes	
46 QuickSearch	"Search" button value		opac.ini	No	Yes	
47 QuickSearch	"Reset" button value		opac.ini	No	Yes	
48 QuickSearch	"More Limits" button present?		opac.ini	No	Yes	
49 QuickSearch	"More Limits" image		limit.gif	No	Yes	Size of image hardcoded.
50 QuickSearch	"Clear Limits" image		clear.gif	No	Yes	Size of image hardcoded. Also appears on Search Limits page.
51 Advanced Search	"QuickSearch" tab label		opac.ini	No	No	
52 Advanced Search	"Advanced Search" tab label		opac.ini	No	No	
53 Advanced Search	"Course Reserves" tab label		opac.ini	No	Yes	
54 Advanced Search	search tab sequence / default		search.ini	No	Yes	

* See <http://www.carli.illinois.edu/mem-prod/I-Share/opac/vw-cust-within-dflt.html>.

Row Number	WebVoyage Page	Design Element	Relevant File(s)	Current Customization Offering from CARLI Office Staff?*	Libraries May Modify Element in Own Development Area without Consortial Impact?	Notes
55	Advanced Search	"Course Reserves" tab present?	search.ini	Yes	Yes	If suppressed from QuickSearch page also suppressed from Guided Keyword page.
56	Advanced Search	number of field sets	opac.ini	No	Yes	Maximum of three.
57	Advanced Search	"Search for:" label's text	opac.ini	No	Yes	
58	Advanced Search	"Search by:" label's text	opac.ini	No	Yes	
59	Advanced Search	selections in "Search by" box (i.e., the search codes enabled)	SysAd	No	Yes	Libraries may add but not remove searches.
60	Advanced Search	default selection for each "Search by" box	opac.ini	No	Yes	
61	Advanced Search	names of search types	SysAd	No	No	
62	Advanced Search	behavior of searches (i.e., what fields searched)	SysAd	No	No	
63	Advanced Search	records-per-page options	opac.ini	No	Yes	Definition affects QuickSearch, Guided Keyword Search, and resubmitted-from-Titles-page results.
64	Advanced Search	records-per-page default	opac.ini	No	Yes	Definition affects QuickSearch, Guided Keyword Search, and resubmitted-from-Titles-page results.
65	Advanced Search	help text appears below (not above) the search panel	opac.ini	No	No	
66	Advanced Search	help text content / format	ht_buildearsearch.htm	No	Yes	
67	Advanced Search	"Search" button value	opac.ini	No	Yes	
68	Advanced Search	"Reset" button value	opac.ini	No	Yes	
69	Advanced Search	"More Limits" button present?	opac.ini	No	Yes	
70	Advanced Search	"More Limits" image	limit.gif	No	Yes	Size of image hardcoded.
71	Advanced Search	"Clear Limits" image	clear.gif	No	Yes	Size of image hardcoded. Also appears on Search Limits page.
72	Advanced Search	"any of these," "all of these," "as a phrase" wording	opac.ini	No	No	
73	Advanced Search	default selection for each any/all/phrase selector	opac.ini	No	Yes	
74	Advanced Search	default setting of radio buttons between field sets	opac.ini	No	Yes	
75	Course Reserves	"Instructor:" label present?	opac.ini	No	Yes	
76	Course Reserves	"Instructor:" label's text	opac.ini	No	Yes	
77	Course Reserves	"Department:" label present?	opac.ini	No	Yes	
78	Course Reserves	"Department:" label's text	opac.ini	No	Yes	
79	Course Reserves	"Course:" label present?	opac.ini	No	Yes	
80	Course Reserves	"Course:" label's text	opac.ini	No	Yes	
81	Course Reserves	"Section:" label present?	opac.ini	No	Yes	To be turned off by default
82	Course Reserves	"Section:" label's text	opac.ini	No	Yes	
83	Course Reserves	help text content / format	ht_coursereserve.htm	No	Yes	
84	Search Limits	help text / instructions	setlimmsg.htm	No	Yes	
85	Search Limits	"Set Limits" button value	opac.ini	No	Yes	
86	Search Limits	"Clear Limits" image	clear.gif	No	Yes	Size of image hardcoded. Also appears on Search pages.
87	Search Limits	language limit present?	limits.ini	No	Yes	
88	Search Limits	"Language:" label's text	opac.ini	No	Yes	
89	Search Limits	language limit options	limits.ini	No	No	
90	Search Limits	sequence of language limit options	limits.ini	No	Yes	
91	Search Limits	publication status limit present?	limits.ini	No	Yes	Turned off by default.
92	Search Limits	"Publication Status:" label's text	opac.ini	No	Yes	
93	Search Limits	publication status limit options	limits.ini	No	Yes	
94	Search Limits	sequence of publication status limit options	limits.ini	No	Yes	
95	Search Limits	location limit present?	limits.ini	No	Yes	
96	Search Limits	"Location:" label's text	opac.ini	No	Yes	
97	Search Limits	location limit options	SysAd	Yes	Yes	
98	Search Limits	date limit present?	limits.ini	No	Yes	
99	Search Limits	"Year of publication:" label's text	opac.ini	No	Yes	

* See <http://www.carli.illinois.edu/mem-prod/1-Share/opac/vw-cust-within-dflt.html>.

Row Number	WebVoyage Page	Design Element	Relevant File(s)	Current Customization Offering from CARLI Office Staff?*	Libraries May Modify Element in Own Development Area without Consortial Impact?	Notes
100	Search Limits	record type+ bib lvl limit present?	limits.ini	No	Yes	
101	Search Limits	"Primary Format:" label's text	opac.ini	No	Yes	
102	Search Limits	record type+ bib lvl limit options	limits.ini	No	Yes	
103	Search Limits	record type + bib lvl limit options' names	limits.ini	No	No	That is, libraries may omit the limit to "am," but if included, "am" must be translated as "Books."
104	Search Limits	record type + bib lvl limit options' sequence	limits.ini	No	Yes	
105	Search Limits	limit on 007 \$a present?	limits.ini	No	Yes	
106	Search Limits	"Additional Format Specification:" label's text	opac.ini	No	Yes	
107	Search Limits	007 \$a limit options	limits.ini	No	Yes	
108	Search Limits	007 \$a limit options' names	limits.ini	No	Yes	Note that 007 \$a limit options in the Universal Catalog may appear to be different if libraries rename their limit options.
109	Search Limits	007 \$a limit options' sequence	limits.ini	No	Yes	
110	Headings	"You Searched:" label's text	opac.ini	No	Yes	
111	Headings	search type description after "You Searched:" label (e.g., "Subject Heading Browse")	opac.ini	No	No	
112	Headings	"Search Results:" label's text	opac.ini	No	Yes	
113	Headings	"Displaying # through # of # entries" message wording	opac.ini	No	No	Definition affects message on Titles Page, as well.
114	Headings	"Repeat search in All I-Share Libraries" link appears	opac.ini	Yes	Yes	If enabled, displays on Titles Page as well.
115	Headings	"Repeat search in All I-Share Libraries" link formatting	opac.ini	No	Yes	Formatting affects display on Titles Page as well.
116	Headings	number of headings that display per page	opac.ini	No	Yes	Affected by the "Records-per-Page" setting. Records-per-Page options and default may be configured.
117	Headings	"previous" and "next" arrows	d-prev.gif, d-next.gif; s-prev.gif, s-next.gif	No	Yes	Same images appear on Titles Page and single-record display pages.
118	Headings	column headings	opac.ini	No	Yes	
119	Headings	which columns' data are hotlinked?	opac.ini	No	Yes	
120	Headings	"See Also" and "Note" buttons	note.gif, seealso.gif	No	Yes	No distinction possible between "See" and "See Also."
121	References	help text / instructions	refer.htm	No	Yes	
122	References	"Reference Info" label's text	opac.ini	No	Yes	
123	Scope Notes	"Scope Notes for:" label's text	opac.ini	No	Yes	
124	Scope Notes	"Scope Notes" label	opac.ini	No	Yes	
125	Titles	Titles Page bypassed if just one record retrieved.	opac.ini	No	Yes	
126	Titles	"You Searched:" label and search type description present?	opac.ini	No	No	
127	Titles	"You Searched:" label's text	opac.ini	No	Yes	That is, libraries must retain but may reword the label.
128	Titles	search type description after "You Searched:" label (e.g., "Subject Heading Browse")	opac.ini	No	No	
129	Titles	"Search Results:" label and search results summary present?	opac.ini	No	No	
130	Titles	"Search Results:" label's text	opac.ini	No	Yes	That is, libraries must retain but may reword the label.
131	Titles	"Displaying # through # of # entries" message wording	opac.ini	No	No	Definition affects message on Headings Page, as well.
132	Titles	"Repeat search in All I-Share Libraries" link appears	opac.ini	Yes	Yes	If enabled, displays on Headings Page as well.
133	Titles	"Repeat search in All I-Share Libraries" link formatting	opac.ini	No	Yes	Formatting affects display on Headings Page as well.
134	Titles	resubmit search bar present at top and/or bottom?	opac.ini	No	Yes	
135	Titles	"Search for:" label's text	opac.ini	No	Yes	
136	Titles	"Search by:" label's text	opac.ini	No	Yes	
137	Titles	selections in "Search by" box (i.e., the search codes enabled)	search.ini	No	Yes	Libraries may add but not remove searches.
138	Titles	sequence of selections in "Search by" box	search.ini	No	Yes	
139	Titles	names of search types	search.ini	No	No	
140	Titles	"QuickLimit:" label	opac.ini	No	No	
141	Titles	QuickLimits option present?	opac.ini	No	Yes	
142	Titles	QuickLimits selections	limits.ini	Yes	Yes	Strongly recommended to name QuickLimits options the same as comparable limits on the Search Limits page.
143	Titles	QuickLimits selection sequence	limits.ini	Yes	Yes	
144	Titles	records-per-page options	opac.ini	No	Yes	One setting affects QuickSearch, Guided Keyword Search, and resubmitted-from-Titles-page results.
145	Titles	records-per-page default	opac.ini	No	Yes	One setting affects QuickSearch, Guided Keyword Search, and resubmitted-from-Titles-page results.
146	Titles	"Submit" button value	opac.ini	No	Yes	
147	Titles	"Reset" button value	opac.ini	No	Yes	
148	Titles	"previous" and "next" arrows	d-prev.gif, d-next.gif; s-prev.gif, s-next.gif	No	Yes	Same images appear on Titles Page and single-record display pages.
149	Titles	"Sort by:" option present at top and/or bottom?	opac.ini	No	Yes	
150	Titles	"Sort by:" label's text	opac.ini	No	Yes	
151	Titles	columns included in search results	SysAd	No	No	(except call number search)
152	Titles	column headings	opac.ini, SysAd	No	No	
153	Titles	default sort applied to search results	SysAd	No	No	
154	Titles	which columns' data are hotlinked?	opac.ini	No	Yes	
155	Titles	thumbnail image appears when record contains an 856?	webvoyage.ini	Yes	Yes	Under investigation. CARLI may need to disallow thumbnail images to protect system performance.
156	Titles	thumbnail image that appears when record contains an 856 is the "Big Red e."	URL.jpg	No	Yes	
157	Titles	labels preceding holdings data elements	opac.ini	No	No	
158	Titles	values in Format column	SysAd	No	No	
159	Titles	values after "Status:" label	opac.ini	No	No	
160	Titles	"Change Limits" button present at top and/or bottom?	opac.ini	No	Yes	
161	Titles	"Change Limits" image	postlimitbtn.jpg	No	Yes	
162	Titles	"Clear Selections" button value	opac.ini	No	No	Suggestions for improved consortial wording requested.
163	Titles	"Continue selecting . . ." button value	opac.ini	No	No	Suggestions for improved consortial wording requested.
164	Titles	names of the output functions, "Print," "Download," "Email," "Bookbag," "Store"	opac.ini	No	No	

* See <http://www.carli.illinois.edu/mem-prod/I-Share/opac/vw-cust-within-dflt.html>.

Row Number	WebVoyage Page	Design Element	Relevant File(s)	Current Customization Offering from CARLI Office Staff?*	Libraries May Modify Element in Own Development Area without Consortial Impact?	Notes
165	Titles	title of output management options table	opac.ini	No	Yes	Also affects the output management table on the single-record display pages.
166	Titles	"Which records?" label	opac.ini	No	Yes	Also affects the output management table on the single-record display pages.
167	Titles	"For print or download . . ." label	opac.ini	No	Yes	Functions still to be called "printing" and "downloading." Also affects the output management table on the single-record display pages.
168	Titles	print/download format options	formats.ini	No	Yes	Options must still include "Full." Also affects the output management table on the single-record display pages.
169	Titles	fields mapped to "Full" print/download format	save#.cfg	No	No	
170	Titles	fields mapped to print/download formats other than "Full"	save#.cfg	No	Yes	Must be kept in sync with equivalent display#.cfg definitions (except for CJK glyphs, with are display-only). Also affects the output management table on the single-record display pages.
171	Titles	text included at the bottom of records selected for print/download	save#.cfg	No	Yes	The current CARLI-supported default output footer is empty.
172	Titles	fields mapped to email output	email.cfg	No	No	Keep the same as the "Full" online view and print/download format. (Exception: CJK glyphs are display-only.)
173	Titles	text included at the bottom of records selected for emailing	emailif.cfg	No	Yes	Footer on manually emailed output is separate from footer on SDI output.
174	Titles	sequence of print/download format options	formats.ini	No	Yes	Also affects the output management table on the single-record display pages.
175	Titles	"Text-Only Display . . ." button value	opac.ini	No	Yes	Functions still to be called "printing" and "downloading." Also affects the output management table on the single-record display pages.
176	Titles	"Save Search Strategy" button value	opac.ini	No	Yes	Function still to be called "save search strategy." Also affects the output management table on the single-record display pages.
177	Titles	record selection radio buttons' wording	opac.ini	No	Yes	Impossible to change sequence or default selection of radio buttons? Also affects the output management table on the single-record display pages.
178	Titles	overall format of output options table	opac.ini	No	Yes	
179	Single-Record Display	which view is the default	display.ini, display#.cfg	No	Yes	
180	Single-Record Display	buttons for switching between/among views	view*.gif	No	Yes	
181	Single-Record Display	sequence of buttons for view options	display.cfg, view*.gif	No	Yes	
182	Single-Record Display	names of views (e.g. "Full," "Brief")	view*.gif	No	Yes	"Full" view must be so named. Other views may be renamed.
183	Single-Record Display	number of different view options	display.ini, display#.cfg	No	Yes	Must include "Full" view. "MARC" view very strongly recommended. Five views maximum possible.
184	Single-Record Display	245 field displayed, in centered bold italic, at the top of the single-record display	opac.ini	No	Yes	Turned off in the CARLI-supported default implementation.
185	Single-Record Display	bib fields and subfields included in "Full" view	display#.cfg	No	No (except 856 and 880 fields)	
186	Single-Record Display	CJK glyphs display?	display#.cfg	Yes	Yes	Turned off in CARLI-supported default local catalogs; turned on in the Universal Catalog.
187	Single-Record Display	bib fields' sequence in "Full" view	display#.cfg	No	Yes	
188	Single-Record Display	bib fields' labels in "Full" view	display#.cfg	No	No	
189	Single-Record Display	which fields are hotlinked for redirected searches from the "Full" view	display#.cfg	No	No	
190	Single-Record Display	which subfields are searched in redirected searches from the "Full" view	display#.cfg	No	No	
191	Single-Record Display	kind of search performed in redirected searches from the "Full" view	display#.cfg, opac.ini	No	No	
192	Single-Record Display	bib 856 field is "hot" in any view that includes the 856	display#.cfg	Yes	Yes	
193	Single-Record Display	"Big Red 'e'" displays next to bib 856 field's data in any view that includes the 856	display#.cfg	Yes	Yes	
194	Single-Record Display	bib 856 \$u displays as text (in addition to hotlinked subfield that might also be the \$u) in any view that includes the 856	display#.cfg	No	Yes	
195	Single-Record Display	bib fields and subfields included in views other than "Full"	display#.cfg	No	Yes	
196	Single-Record Display	bib fields' sequence in views other than "Full"	display#.cfg	No	Yes	
197	Single-Record Display	bib fields' labels in views other than "Full"	display#.cfg	No	Yes	Strongly recommended to label fields the same way in all views that include them (that is, the same way they are labeled in the "Full" view).
198	Single-Record Display	which fields are hotlinked for redirected searches from views other than "Full"	display#.cfg	No	Yes	
199	Single-Record Display	which subfields are searched in redirected searches from views other than "Full"	display#.cfg	No	No	That is, libraries may remove a hotlink, but if the hotlink is retained it must behave as it does in the "Full" view.
200	Single-Record Display	kind of search performed in redirected searches from views other than "Full"	display#.cfg, opac.ini	No	No	That is, libraries may remove a hotlink, but if the hotlink is retained it must behave as it does in the "Full" view.
201	Single-Record Display	MFHD 856 field is "hot"	displayh.cfg	Yes	Yes	
202	Single-Record Display	"Big Red 'e'" displays next to MFHD 856 field's data	displayh.cfg	Yes	Yes	
203	Single-Record Display	MFHD 856 \$u displays as text (in addition to hotlinked subfield that might also be the \$u)	displayh.cfg	No	Yes	
204	Single-Record Display	holdings fields included in the holdings portion of each single-record view	displayh.cfg	No	Yes	The Universal Catalog will continue to use the CARLI-supported default specification. Note that divergences from the CARLI-supported default will complicate troubleshooting.
205	Single-Record Display	holdings fields' labels	displayh.cfg	No	Yes	The Universal Catalog will continue to use the CARLI-supported default specification. Note that divergences from the CARLI-supported default will complicate troubleshooting.

* See <http://www.carli.illinois.edu/mem-prod/1-Share/opac/vw-cust-within-dflt.html>.

Row Number	WebVoyage Page	Design Element	Relevant File(s)	Current Customization Offering from CARLI Office Staff?*	Libraries May Modify Element in Own Development Area without Consortial Impact?	Notes
206	Single-Record Display	values after "Status:" label	opac.ini	No	No	That is, libraries may remove the Status field from display, but if they retain it then the values that display must be consistent with what will display in the Universal Catalog. This applies whether or not the label "Status:" has itself been modified.
207	Single-Record Display	"Find other copies in I-Share libraries" link appears at all	opac.ini, display#.cfg	Yes	Yes	
208	Single-Record Display	item statuses after which the "Which other libraries own?" link appears	opac.ini	No	Yes	
209	Single-Record Display	standard number fields on which the "Which other libraries own?" link searches	display#.cfg	No	No	
210	Single-Record Display	holdings fields' sequence	displayh.cfg	No	Yes	The Universal Catalog will continue to use the CARLI-supported default specification. Note that divergences from the CARLI-supported default will complicate troubleshooting.
211	Single-Record Display	call number field hotlinked for a redirected search	displayh.cfg	No	Yes	
212	Single-Record Display	which subfields are searched in redirected call number search	displayh.cfg	No	Yes	That is, libraries may remove the hotlink, but if the hotlink is retained it must behave as it does in the CARLI-supported default configuration.
213	Single-Record Display	kind of search performed in redirected call number search	displayh.cfg	No	Yes	That is, libraries may remove the hotlink, but if the hotlink is retained it must behave as it does in the CARLI-supported default configuration.
214	Single-Record Display	any aspect of the output management options table				See rows above, with the Titles page customization options.
215	Logon	help text / instructions	logonmsg.htm	No	Yes	May add site-specific information, but may not remove consortial-standard text.
216	Logon	"Select Your Home Library" label	opac.ini	No	No	
217	Logon	form of institution name in drop-down list	SysAd	Yes	Yes	
218	Logon	"Library Borrower ID" label	opac.ini	No	No	
219	Logon	ID type options	opac.ini	No	Yes	The Universal Catalog will prompt for "Library Borrower ID" only. Libraries are strongly discouraged from enabling the "Social Security Number" option (which searches the SSN field in the patron record and will not find a nine-digit ID in the barcode field). Libraries may, if it would be a service to their users, enable the "Institutional ID" as an alternative to "Library Borrower ID," but may not remove the "Library Borrower ID" option.
220	Logon	"Last Name" label	opac.ini	No	No	
221	Logon	"Login" button value	opac.ini	No	No	
222	Logon	"Reset" button value	opac.ini	No	No	
223	MyAccount	"Personal Info," "Patron Blocks," "Items Checked Out," "Request Information," "Fines & Fees" sections all display	opac.ini	No	No	
224	MyAccount	section label wording	opac.ini	No	No	
225	MyAccount	section label format	opac.ini	No	Yes
