Practice Exercises

Practice time #1

Using only the Any Word Anywhere search, find:

- titles about medieval England
- folktales about animals

Practice time #2

- My Statistics professor told me to find a book by David (or was it Denzell?) Smith, published in 1975. Please find this using the Advanced Search page.
- Now find the same title using Command Mode on the Quick Search page.

Practice time #3

- How many translators' names for Goethe's *Faust* can you find in the training database?
- Search for works by Eugene O'Neill and Claude Lévi-Strauss.
- The title *Defining Females: The Nature of Women in Society* interests me. What else is in the training database that might be similar to it?
- What does the catalog say comes before "ML1" in the training database's shelf list?

Practice time #4

- How many serials in the training database have the word "history" in the title?
- How many scores in any of the Romance Languages (French, Italian, Portuguese or Spanish) are represented in the training database?
- Extra credit: build a URL that will search the training database for books with the word "literatura" in the title or contents note that were published in Argentina.

Practice time #5
