

Wink...

"Wink is a Tutorial and Presentation creation software, primarily aimed at creating tutorials on how to use software. Using Wink you can capture screenshots, add explanations boxes, buttons, titles etc and generate a highly effective tutorial for your users."

Easy Customization

-  Add audio to frames
-  Add custom images
-  Add shapes
-  Add text boxes
-  Add buttons for manual advancing
-  Add "go to frame" buttons to allow users to repeat instructions.

Additional options for customizing text boxes, shapes & images.

Allows you to determine timing per frame.

Stay in this frame for sec.

Recording Options

Recording is controlled using keyboard commands.

To take a screen snapshot -	Pause
To start/stop timed captures -	Shift + Pause
To start/stop input-driven captures -	Alt + Pause

Pause:

take a specific one frame screen capture.

Shift & Pause:

a continuous stream of screen captures at a default rate of 4 frames a second

Alt & Pause:

automatically captures any mouse clicks, keyboard presses. Records more details then single frame captures and less extraneous frames, cutting down editing time and file sizes.

View Wink Tutorial @ www.olupus.com/wink

Take a set by step tutorial on using Wink and create a short, simple wink presentation at your own pace.

(Note: due to variations in monitor size and resolution, you may need to scroll up and down to see all aspects of the tutorial.)

Tutorial Tips:

- Planning**
Use "storyboarding" and graphic outlines as useful tools for planning tutorials.
- Currency**
Keep tutorials current. Update as information and resources change and evolve.
- Feedback:**
Have a novice user review your tutorial to ensure ease of use and to ensure all tasks/steps are clearly defined in the tutorial.
