Future Plans:

The Technical Services Committee will continue to develop under the new CARLI committee structure begun this year. Two new and dynamic members, Elizabeth Cribbs from Northern Illinois University and Lauren Noel from Columbia College have generously agreed to act as co-chairs for the coming year.

Chairpersons' Comments:

This was the first year of operations for the Technical Services Committee under CARLI's new structure. The committee held most of its meetings via conference call this year again due to reduced travel budgets and increased gas prices. This continued to work very effectively this year; meetings moved smoothly and efficiently, and team members remained in regular contact via e-mail as well. We were able to develop good working relationships among the team members and the committee benefited from everyone's expertise and counsel.

Respectfully submitted,
Jim Edstrom and Lynn Fields
Co-chairs, 2013-2014
