SFX Systems Committee Annual Project 2016–2017
Expansion of Existing SFX Documentation

The SFX 2017 annual project is a collection of documents aimed at new SFX administrators to bring them up to speed with SFX best practices in the CARLI environment.

Following is the list of sections and writers.

- Documentation for Successors: Karen Gallacci and Lisa Wallis
- Reporting/fixing mistakes in Knowledge Base: Jeff Matlock and Andy Meyer
- Display Logic/Interface Options: Andrea Imre
- Usage Stats: Jeff Matlock and Andy Meyer
- Interlibrary Loan: Andy Meyer
- Individual Subscription Activation: Lauren Jackson-Beck and Karen Gallacci
- Activating Collections: Lauren Jackson-Beck and Peter Tubbs
- Mobile Interface: Max King and Peter Tubbs

Why was this work important? SFX is complex to learn. Each of us proposed an idea that was important to SFX administration and to our library. The committee expanded on existing documentation and video lessons. CARLI staff have directed libraries to use new documentation.

Plans to update it: future efforts to stream line CARLI SFX documentation so less adding of somewhat duplicative documentation. Add to existing rather than create new sections.

For more information see https://www.carli.illinois.edu/products-services/link-resolver-sfx/sfx-documentation

2016-2017 CARLI SFX Systems Committee: Lauren Jackson-Beck, Karen Gallacci, Andrea Imre, Max King (Chair), Jeffrey Matlak, Andy Meyer, Cindy Scott (part year), Peter Tubbs, Lisa Wallis.
