

# RESOURCE RECOMMENDER

Lori Thompson

Senior Library Specialist

Southern Illinois University

School of Medicine Library

[lthompson@siumed.edu](mailto:lthompson@siumed.edu)

The Resource Recommender service allows you to recommend the following resources based on searchable tags that you configure in Alma. Some options are database, website, person, library information, and library guide.

You will need the Discovery Administrator Role.

3D printer

Library Catalog

that contain my query words anywhere in the record

LIBRARY GUIDE

- Imagineering Lab 3D printing
- LibGuide Imagineering Lab

SUGGESTED LIBRARIAN

 Karli White  
Imagineering Lab contact person

Including "3d printing". Just search 3D printer

ALMA menu > Discovery > Other > Resource Recommender Configuration

## ALMA menu > Discovery > Other > Resource Recommender Configuration

I found it helps if you gather this information or make your decisions before you begin configuring. Especially the tags. However, you can always add more tags. Choose Views All, to see in Test View.

Notes for Library information Resource Recommender Graphic Medicine

Key: GraphicMed

Name: Graphic Medicine Collection

Description: Quick Link to our Graphic Medicine Collection

Tags: graphic medicine;cartoon;comic books;graphic novels; Tip: Subject headings might provide good ideas

Link: [https://i-share-sim.primo.exlibrisgroup.com/discovery/collectionDiscovery?vid=01CARLI\\_SIM:CARLI\\_SIM&collectionId=811719600005891](https://i-share-sim.primo.exlibrisgroup.com/discovery/collectionDiscovery?vid=01CARLI_SIM:CARLI_SIM&collectionId=811719600005891)

Link Text: Can leave blank or add a note here

Note: This does not display to user. Optional descriptive text to explain more about this resource to staff members

Views: All

- ❖ Go to Library Information click Edit at ellipsis
- ❖ Resource Configuration: Library information page click to Add Resource
- ❖ Add Resource box or form will appear. Fill in mandatory and desired fields. Then Add and Close
- ❖ Go to Primo VE enter one of your tags in the search bar. Library information box with clickable url should display.

# Resource Configuration: Suggested librarian

What goes in Key field? *PersonSomething*. It saves to `person.personKW` {example}

Active	Key	Name	Description	Tags		
1	<input checked="" type="checkbox"/>	person.personKW	Karli White	Imagineering Lab contact person	3d printer;3d printing;	...

Key \*

Name \*

Description

Email

Email text

Image URL

Note

Views \*

Since the **Key** is used as an internal ID, it cannot be modified later. **Names** can.

If you want to specify multiple tags for a recommendation, separate them with a semicolon.

# Resource Configuration: Suggested Website

What goes in Key field? Website*Something*. It saves to website.website {example}

Suggested Website. We created this to showcase a Civil War Medicine Collection and a current display from the Pearson Museum featured in our Medical Library.

1	<input checked="" type="checkbox"/>	website.website	Pearson Museum	"Pearson Museum, a repository for the display of medical and scientific artifacts, and classroom for sharing the heritage of healing."	pearson;andersonville;civil war;blue and gray;
---	-------------------------------------	-----------------	----------------	--	--

SUGGESTED WEBSITE

Pearson Museum

"Pearson Museum, a repository for the display of medical and scientific artifacts, and classroom for sharing the heritage of healing."

**Pearson Museum** displays as clickable link here in Primo VE.

We found that adding Link Text such as Pearson Museum here duplicated the Name and displayed oddly. Thus, we left the Link Text field blank on purpose.
