```
00:12:30        Jodi Craiglow:  Hey, Ted! I can barely hear you.
00:13:15        Gail Heideman:  I have to do a valuation of my library
collection. I have the value spreadsheets provided by the Library of
Congress, which breaks down the value for each call number. Is there a
report in Analytics that might give me totals for my book collection by call
number?
00:13:53        Gail Heideman:  Yes, so for Dewey 001, 002, etc
00:14:05        Mary Konkel:    Is there an update on where we are with the
Alma Bib reduction project(s)?
00:17:18        Mary Konkel:    Anyone using Windows 11 yet with OCLC, Alma,
and Primo?
00:17:34        Gail Heideman:  Yes, items, not titles
00:17:53        Jodi Craiglow:  I am (Windows 11) -- it works beautifully!
00:19:34        Lori Thompson:  OH that sounds good! 1 instead of 80
00:20:26        Brent Eckert:   And how about the "named users" reduction
project?
00:21:43        Holly Nordheden:        Any change on the "Merge & combine"
ban for NZ bib records?
00:22:03        Lori Thompson:  Again, YAY. Good job, CARLI
00:22:43        Heather Cannon: We currently don't use acquisitions in Alma.
 Any rough estimate of how long it would take a single person (me) to set it
up for use?  We want to start using Rialto and want to use acquisitions to
make it most useful.  But I do ALL tech services and systems duties; not
sure how much time I should anticipate allocating for this.
00:23:06        Mary Konkel:    Has CARLI heard anything more on Clarivate
merger? Last I heard was that they thought merger might be finalized in late
Fall 2021.  Will you still be contracting and paying ProQuest for ExLibris?
00:23:15        constance.k.lee:       It was still grayed out for me just
this past Friday
00:23:17        Lori Thompson:  I had been waiting on that go ahead word as
well, @Holly.
00:23:46        Holly Nordheden:        That's great. I must have missed an
announcement about the update correcting the problem
00:28:11        Kristine Hammerstrand:  @Mary K. Clarivate staff have not
been involved in our Alma PVE stuff at this time. Our contacts are all EXL
or PQ staff at this time.
00:31:05        Brent Eckert:   I am doing the ACRL annual library survey,
and I have a question about question 45.      "45. External Contributions
from Consortia/Network(s)/Systems
If the library receives access to e-collections, catalog platforms,
discovery services, or other e-resources through one or more centrally
funded systems or consortia arrangements for which it does not pay fully
and/or directly (for example, funding is provided by the state on behalf of
all members), enter the amount paid by external bodies on its behalf. If the
specific dollar amount is not known, but the total student FTE for the
consortium and amount spent for the academic members are known, divide the
overall amount spent by the institution's share of the total student FTE.
The consortium or system office may make a value-per-FTE metric available
for all members of the consortium."            This seems to be asking for
the amount that CARLI pays for databases that is makes available to all
members. Is this number available? What do other libraries do here
00:31:20        Lori Thompson:  Quick question about Classifications. I
thought NLM was going to be added as an option. Has that not happened yet?
Or is that something we have to request from ExLibris to add for us?
00:31:55        Gail Heideman:  That's beautiful Ted!
00:32:22        Gail Heideman:  That's exactly what I need
00:36:20        Kristine Hammerstrand:  @Brent, have you looked at your
annual CARLI value letter for that kind of number?
00:36:53        Brent Eckert:   @Kristine, thanks! Good idea!
```

00:36:59   Heather Cannon: I did have someone answer me in a private message and I'll be contacting them later.
00:38:09   Brent Eckert: @Kristine, I think that letter was sent to our dean, right? Is it available anywhere else?
00:38:43   Kristine Hammerstrand: We can get you a copy. That goes for any of you, of course.
00:38:52   Jodi Craiglow: I noticed that we have some duplicate records in our IZ, and I was trying to create an analytic to let me know where the duplicates are. How do I create a filter on a column in Analytics to report only those values (in this case, OCLC numbers) that are duplicated?
00:39:09   Jodi Craiglow: (I know how to do it in Google Sheets/Excel, but Oracle is a little new to me)
00:40:30   Brent Eckert: @Kristine, thanks!
00:41:12   Ted Schwitzner, CARLI (he/him/his): https://www.carli.illinois.edu/membervalue.html
00:42:35   Lori Thompson: Thank you. I just was worried I missed something. Thank you for looking....no worries.
00:43:30   Denise Green she/her: Some details: https://knowledge.exlibrisgroup.com/Alma/Product_Materials/010Roadmap
00:43:51   Lori Thompson: Yes, Release notes are something we regularly check. Again, thanks for looking.
00:43:53   Tami Luedtke: Speaking of analytics, I have a list of ISBNs that I am being asked to perform both P & E overlap analysis of. I know there's a GUI way to do e overlap analysis in the Resources area, but am wondering what the best way to perform the P overlap analysis is for this and other lists of ISBNs. I know there's some sort of filter for input files, though I understand it has number limits as well. Is adding that filter to a P overlap analysis report likely the best way to approach this? Or is there some other way to approach this that might be better?
00:45:20   Jodi Craiglow: It's a Rialto thing. *sheepish grin*
00:48:47   Jodi Craiglow: Fabulous! This is what I need!
00:50:51   Tami Luedtke: Yes. I know there a limit on the number of ISBNS with the input
00:54:38   Jen Masciadrelli, CARLI (she/her):   it looks like this might be worth checking out!
00:55:26   Elaine Page (she/her/hers):   That will help us a lot, good news!
00:56:00   Tami Luedtke: Ah that's good to know! I can take a look at the sandbox too (at least to see how the new overlap analysis functions!
00:56:44   Tami Luedtke: Finding overlap against eh NZ too would be good
00:56:51   Tami Luedtke: The not eh
00:57:52   Jen Masciadrelli, CARLI (she/her):   Ah! OK thank you
00:59:11   Tami Luedtke: Thanks. I'll do some experiments :-)
01:04:44   Brent Eckert: I didn't get the message about that. What is it called exactly?
01:04:49   Gloria Redinger: Do you know, does this include journal holdings?
01:04:58   Holly Nordheden: Original email from OCLC sent out 1/21 to our director. Title "Expand access to your library's collections …"
01:05:01   Ted Schwitzner, CARLI (he/him/his):   Streamlined Holdings Update
01:05:48   Nicole Swanson, CARLI (she, her, hers): OCLC wants to exclude KB records from this job
01:06:29   kdauksz: the OCLC contact person at ISL is Jill Heffernan. 217-782-7849 jheffernan@ilsos.gov. You can also contact me at kdauksza@ilsos.gov or 217-785-0052
01:07:09   Denise Green she/her: KB = Knowledge Base

```
01:08:08        Jodi Craiglow:  Happy to help! :)
01:13:27        Holly Nordheden:        Ted, your voice is very faint today
01:14:30        Tami Luedtke:   Speaking of holdings, can you remind me what
the average turn around time between the time we delete a record in Alma and
the time the system sends the WorldCat holding deletion to OCLC to process
usually is?
01:16:47        Nicole Swanson, CARLI (she, her, hers): Here is a
documentation we have with the times indicated in case you'd like a
reference later:
https://www.carli.illinois.edu/products-services/i-share/physical-res-man/oc
lc-data-sync
01:17:53        Tami Luedtke:   Thanks that's helpful!
01:23:06        Lori Thompson:  I don't have any questions but want to take
a minute to say...we appreciate you all!
01:23:15        kdauksz:        thank you
01:23:17        Carol Wubbena:  Thank you for the helpful info today!
01:23:22        Brent Eckert:   Is there a way to prevent holdings from
free/open access collections getting set in OCLC. We often get ILL requests
for freely-available journal titles but outside of the dates available. I
don't see any reason to have these holdings in OCLC.
01:23:23        Mary Konkel:    THANK YOU!
01:23:23        Gail Heideman:  Thanks for all of your help!
01:23:24        Jodi Craiglow:  Thank you for your help!
01:23:26        Julie:  I agree!  Thanks so much for helping us all out!
01:23:26        Mingyan Li:     Thank you!
01:23:38        Holly Nordheden:        Always informative ...
01:23:39        Rosalva Soto:   Thank You!
01:23:50        Maria Romero Costello:  Thank You
```
