

00:15:33 Jessica Gibson (CARLI): CARLI's Exporting Bibliographic Records from Alma:
<https://www.carli.illinois.edu/products-services/i-share/physical-res-man/export-records>

00:17:34 Ted Schwitzner, CARLI (he/him/his):
[https://knowledge.exlibrisgroup.com/Alma/Product_Documentation/010Alma_Online_Help_\(English\)/050Administration/080Managing_Search_Queries_and_Sets](https://knowledge.exlibrisgroup.com/Alma/Product_Documentation/010Alma_Online_Help_(English)/050Administration/080Managing_Search_Queries_and_Sets)

00:19:08 Ted Schwitzner, CARLI (he/him/his): <https://www.carli.illinois.edu/products-services/i-share/external-system/SSHSecureShell>

00:25:39 Elaine Page (she/her/hers): Ted, did you mean to include titles that were suppressed?

00:45:14 Brent Eckert: Since you mentioned EDS as one reason to export bib data, I was wondering which other libraries use EDS.

00:45:50 Jessica: Would this be a way to get holdings into OCLC?

00:45:56 Julie Adamski: We use EDS at Moody Bible Institute

00:45:58 Denise Green: Moody Bible was and Parkland College?

00:46:35 Jennifer: Alma automatically sets holdings in worldshare when we add items in Alma right?

00:47:02 Brent Eckert: Thanks. I have a few questions for other EDS libraries that I'll email later.

00:47:19 Lori Thompson: I'm sorry, I got another call and missed this point, the dropdown on Add Holdings... why might you not want to pick this?

00:47:52 Jessica: Local holdings records

00:52:06 Brent Eckert: Just for clarification, if we change the management tag from "Publish to WorldCat" to "Don't publish to WorldCat" that will delete our holdings in OCLC as well, right?

00:52:13 Jessica: Okay, thanks!

00:52:38 Holly Nordheden: What are the benefits of using Local holdings records to sync with OCLC?

00:53:01 Liz Hollendonner (she/her): I am curious about the job on screen that is "Publish electronic records to Google Scholar." Has anyone explored that option?

00:53:52 Lori Thompson: I getcha. But for this OCLC Reclamation, specifically?

00:54:16 Denise Green: @Liz Many I-Share libs have set up Google Scholar publishing, How to do and why- see <https://www.carli.illinois.edu/products-services/i-share/external-system/GoogleScholar>

00:54:30 Liz Hollendonner (she/her): Thanks Denise!

00:54:33 Lori Thompson: Perfect! Thanks for the clarification

00:56:45 Peter Tubbs: Could you talk a bit about the "Publish Primo VE records to Google I-III" profiles?

00:57:51 Holly Nordheden: We used it for SILO, but since we withdrew print titles, I was just curious if there was another application

01:01:50 Denise Green: @ Peter - I'll have to research that. Found this Ex L page as a start. [https://knowledge.exlibrisgroup.com/Primo/Product_Documentation/020Primo_VE/Primo_VE_\(English\)/110Publishing_for_Primo_VE/Configuring_Sitemap_Files_for_Primo_VE](https://knowledge.exlibrisgroup.com/Primo/Product_Documentation/020Primo_VE/Primo_VE_(English)/110Publishing_for_Primo_VE/Configuring_Sitemap_Files_for_Primo_VE)

01:02:31 Peter Tubbs: Right, my guess would be that it makes Primo pages Googleable

01:03:01 Tami Luedtke: We've tried to set it up to work with Google Analytics but it hasn't worked well yet

01:03:14 Peter Tubbs: Does anyone???

01:03:26 Brent Eckert: Is there a way to exclude electronic holdings from free and open-access collections from showing up in OCLC? We often get ILL requests for articles from these resources that are out of range of the free materials (since we don't have LHRs in OCLC for these), and, thus, they are "nuisance" requests since we can't fill them.

01:06:07 Brent Eckert: I guess so. I thought some of them are ones that CARLI activated.

01:07:14 Brent Eckert: I'll try to pay better attention in the future as I check them.

01:07:51 Jen Masciadrelli, CARLI (she/her): If you get any examples that are "Activated by CARLI" please send them to support, Brent!

01:09:11 Denise Green: Yes or in PrimoVE "Provided by CARLI..."

01:10:15 Andrea Imre: The electronic holdings set exported to OCLC has the following criteria: where (OCLC Control Number (035a) contains keywords "*" AND Is Local (Electronic Portfolio) equals "Yes" AND Availability (Electronic Portfolio) equals "Available")

01:10:40 Lynne Ferrell: Back to LHRs in future Jen had mentioned.

If we know our holdings need updating,

should we wait to fix those OR work on

fixing those now so they are correct?

01:10:46 Peter Tubbs: We have sort of the inverse question—Ted, in correspondence about this around a month ago, you noted many of our electronic holdings weren't being provided to OCLC because they lack OCLC control numbers (if I recall correctly). We suspect this is preventing us from getting ILL requests for them

01:11:26 Andrea Imre: Brent, Do you perhaps have local portfolios leftover from from migration that are free resources?

01:11:51 Brent Eckert: No, I don't think so.

01:13:11 Brent Eckert: Good, thanks.

01:14:08 Jessica: What if they're correct in Alma but not showing right in Primo VE?

01:15:44 Holly Nordheden: Yes we finished changing our 866 to 853/863 before migration.
Sigh

01:16:02 Gail Heideman: Thanks for that, I am hoping to get LHRs updated soon

01:16:22 Peter Tubbs: I think this was basically answered by Ted's note about using Collection Manager instead of Alma

01:18:54 Liz Hollendonner (she/her): I have an off topic question if we have time.

01:19:25 Liz Hollendonner (she/her): It's about EBSCO OpenURL in Alma and I don't quite know how to phrase it.

01:20:23 Rosalie Resendiz (she/her) @ UIC: Another off topic question. When searching the NZ, if we find an orphan bib (physical materials) we should delete it?

01:24:35 Andrea Imre: You could try to search Primo VE using the title of the article to see if Primo VE can find the article- it did for me. So as Denise is indicating, Google Scholar had insufficient metadata

01:27:08 Andrea Imre: CDI has the correct metadata and it links to the EBSCO article FT

01:29:22 Rosalie Resendiz (she/her) @ UIC: OK. thank you!

01:38:53 Holly Nordheden: OCLC has done a lot of merging causing this problem. with the co-mingling of print and electronic bibs!

01:39:14 kdauksz: I support disabling the CZ bib match

01:40:36 Jodi Craiglow: I agree with Kathy -- CZ matches are the bane of my existence when I'm trying to update records.

01:41:44 kdauksz: please post the link to the alma release notes

01:42:27 Ted Schwitzner, CARLI (he/him/his):
https://knowledge.exlibrisgroup.com/Alma/Release_Notes/2022/Alma_2022_Release_Notes?mon=202204BASE

01:42:56 kdauksz: :)

01:43:28 Lori Thompson: As usual, extremely helpful and informative! Thank you for all your work on our behalf.

01:44:08 Lynne Ferrell: Yes, thank you!

01:44:11 Andrea Imre: Thanks!

01:44:14 Jessica: Thanks!

01:44:15 Denise Green: Thanks for coming

01:44:16 Jen Masciadrelli, CARLI (she/her): Thanks everyone!

01:44:20 Karin Wece (she/her): Thank you!

01:44:21 Jodi Craiglow: Thanks, y'all! So grateful for your wisdom and support!

01:44:29 Tami Luedtke: Thanks!

01:44:29 SKumar: Thanks!

01:44:41 Amanda Wiesenhofer: Thank you!
